**Slideshow Content:**

Image slideshows can only be created by Web Support. To have a slideshow created create a ticket with the request. After they have been created regular users can edit which images appear in the slideshow. It is important that if any changes are made they need follow these steps to ensure the images display properly on the page.

1. Log in to edit the page with the slideshow.
2. Highlight over the slideshow and then click on modify.
   a. **Delete:**
      i. To remove an image simply click on it and then press delete on the keyboard
   b. **Add:**
      i. To add an image click at the very bottom of the image field.
      ii. Click on the media library to insert a new image and then press select.
      iii. After the image has been added press “Enter” on the keyboard.
3. Click on update at the bottom of the window.
4. Approve the content to have the changes published.
